

-----Attention general public-----

Having the effect of suppressing public comment, 4 of 5 web "buttons" for submitting public comments on media ownership have been disabled (and have been since at least 5/24/03) on the FCC web site. The FCC knows this (I have an email from them). They appear to have no intention of fixing this.

On the web page [www.fcc.gov/ownership](http://www.fcc.gov/ownership), the buttons "ECFS Express", "go to ECFS", and "File comments with ECFS Express" have ALL been disabled (they apparently connect to an unavailable server).

On the web page [www.fcc.gov](http://www.fcc.gov), the button "File comments with ECFS Express - main" is disabled.

The one button that works is on [www.fcc.gov](http://www.fcc.gov): "File comments with ECFS Express - alternate".
